P.M.

My Dear Sam,

I wrote you this morn'g but had not then time
to cover all the points of your letter, only the most important.
I have read both letters repeatedly and with
great care so as to saturate myself with the
situation as fully as I may without a personal
interview on the ground. I should be glad indeed
to have this in addition to having the pleasure
of seeing you again, but I seem to be, at present,
hindered in my movements, by several causes.
And I know that you feel rather lonely and un-
responsible, but I think your position
before the stockholders and the Board will be a
brave and independent one, when you show them
that we had stood ready to advance the money
needed to keep the work going, without exacting
assessments, and are now willing to agree to ei-
ther a 5 or a 10 ct assessment, as they may desire,
to relieve the Company of its indebtedness and
to advance the work still further. They certainly
must realize that this property is not a play-
thing and that we are not after "making a turn".

As I already wrote, in case you make this agree-
ment 10 cts. I must like the work pressed only
fast enough to secure the end you mention; to wit -
"the economy of our work will call for small increase
of force rather than a reduction during the next
month or two"

As I have understood the position of both Cornell
and the Judge, up to the time of the attachment,
that 10,000 shares had no place in any pool
but was held by the Judge in trust for Cornell -
however I have no objection to it being transferred
as you propose, in trust for Stanford; you
may make Deland Stanford if you can arrange with
the Senator to do so, but it might advance the price.

Please send me a mem. of the number of shares
you wish to place with our "syndicate" (I hate
that name almost as badly as that of "Expert",
and the amt and I will send you a check
and the name in which the certificate is to
be made. It had better not be in either yours
or mine. He want simply enough stock in your
So. Red. breaks & mine to make us respectable Directors

I note what you say of Cornell's failure to ap-
ply that \$500 as he said he would - something
it would have been very safe to bet on: and I
trust the advice you have as to the attachment
having lost its force is correct.

I do not know if the Jamieson Co. could own the
stock of the Putz Co. but we can fix it in some way
I would let Humphreys meet with the others
at present. He does not wish now to buy them out.
He did well enough for them in taking their
loose stock.

I trust that you will get rid of that
atty fee matter of the Judge. It disgruntles
every body interested in the Company
and is manifestly unfair.

Your aunts are all much better. Both
am - I found my much better last week
and the children all around quite well.

I expect to go to Abasco tomorrow night.
I sincerely wish I could get that Hater
Co. question settled. - Give up of father
